## MEMORANDA.

**Trade.**—The Oversea imports during February were valued at £2,220,936 and show a decrease of £507,836, or nearly 18·6 per cent., as compared with the corresponding month of last year. The total for eight months, July to February, 1916–17, was £24,155,069, an increase of £2,268,779, or 10·4 per cent., in comparison with the figures for 1915–16.

The Oversea exports during February amounted to £4,016,127, being an increase of £370,088, or over 10 per cent. as compared with the corresponding month of last year. For the eight months, July to February, there was a decrease of £2,380,419, or over 8 per cent. compared with the same period for 1915–16.

Principal increases during the eight months were—

	£
Wheat and Flour ... ..	2,525,738
Minerals ... ..	1,409,621
Butter... ..	1,009,423

Principal decreases during the same period were—

Wool ... ..	751,474
“Other” Pastoral Produce ... ..	20,452

Separating merchandise from gold, the exports of the former during the eight months increased by £4,696,357, and the latter decreased by £7,076,776.

**Imports at Sydney.**—Excluding the value of the imports from State ports, the articles imported at the port of Sydney in February were valued at £3,109,084. The following is a summary of the imports during the month :—

A few special articles, denoted by number in the detailed table within, have been converted into weight or measurement, and are included in the above statement. During the eight months ended February, 1917, the oversea imports were valued at £23,333,281, and the interstate imports at £9,125,068, the total of the two being £32,458,349.

**Public Finances.**—The Public Accounts for February show that the net revenue for the month was £1,440,059, or £50,525 more than in February of last year. During the eight months ended 28th February the revenue was £11,868,038, being £248,775, or 2·1 per cent. more than in the corresponding period of the last financial year.

Principal increases during the eight months were—	£

The expenditure during February was £1,480,651—a decrease of £61,701, or 4 per cent., as compared with February of last year. During the eight months the expenditure was £13,046,312, being £903,627, or 7·4 per cent. more than in 1915-16.

Principal increases during the seven months were—	£
Interest Repayments ... ..	284,956
Government Departments ... ..	328,265
Business Undertakings ... ..	290,406

On the 28th February, 1917, the Consolidated Revenue Account was in debit to the amount of £1,931,165.

**Mineral Production, 1916.**—The value of minerals won in New South Wales during 1916 was equal to £10,515,856, there being a net increase of £912,626 on the value for 1915, and but for the effects of the industrial unrest at the Broken Hill and Cobar fields in the beginning of the year, and the coal strike towards the close of the period under review, the total production would have been even more satisfactory. This result is due to the high prices ruling for the industrial metals, notably copper and silver-lead, &c. To the total, gold contributed £459,370; silver and silver-lead, £3,284,991; coal, £3,336,419; copper, £586,127; and tin, £306,497. The aggregate value of all minerals won up to the end of 1916 is estimated at £273,154,084.

The gold yield during February was 6,469 oz. crude, equal to 6,056 oz. fine, valued at £25,726, and showed a decrease of 937 oz. fine, and £3,980 in value, compared with February of last year. The value of gold produced during the two months was £54,618, and showed a decrease of 3,371 oz. fine, and £14,320 in value in the figures for the corresponding period of last year.

**Cost of Living, Sydney.**—From the information collected each month (see Table 57) as to the retail prices in Sydney of food and groceries, it appears that in February, 1917, prices were 33·8 per cent. higher than in July, 1914, 1·0 per cent. higher than in February, 1916, and 1·8 per cent. higher than in the preceding month, January, 1917.

Meat, which is included in the results quoted above, shows prices in February, 1917, 70·4 per cent. higher than in July, 1914, 5·2 per cent. higher than in February, 1916, and 2·9 per cent. higher than in January, 1917. Increases occurred in the prices of potatoes, cheese, sago, and eggs.

Both beef and mutton increased slightly in price, and pork fell about a penny a pound.

The following is a statement of the price levels since July, 1914, the levels for which were taken as base and called 100 :—

**Land Selections.**—During February, 129 applications were made for 49,096 acres under the Crown Lands Act; and 86,346 acres, representing 245 blocks, were gazetted for residential settlement, which include areas set apart for returned soldiers. Since the beginning of the year the number of applications has been 215, and the area applied for 98,542 acres. The original area gazetted for residential settlement since the 1st January is 99,945 acres, representing 441 blocks.

**Meteorology.**—The inland districts of the State received an abundant rainfall during the month of February, the greater portion of every division on and west of the mountains participating in amounts exceeding the average. At several stations in the Western Division, notably at Broken Hill and Tibooburra, extensive falls were reported, and in some of the western rivers floods were experienced, partly as the result of storms beyond the Queensland border. The heaviest downpours, however, occurred on the Central Tablelands. At a few scattered places in the western district, in parts of the inland divisions of the South and Central Coast, and almost generally on the northern seaboard, shortages occurred. The inland precipitation, accompanied by widespread and frequent thunderstorms—the type of weather usually experienced at this period of the year—was of monsoonal tropical origin, but on the coastal district moist southerly winds prevailed, which had a depressing effect upon temperatures generally, and yielded many seaboard showers.

**Vital Statistics—Sydney and Suburbs—February, 1917.**—The births registered numbered 1,584, equal to 24·86 per 1,000 of population ; of the total, 812 were males and 772 females. The rate is unsatisfactory, being 6·3 per cent. below the average of the previous five years.

The deaths numbered 527, namely, 294 males and 233 females, equal to a rate of 8·27 per 1,000 of population. The mortality rate is very satisfactory, being 12·1 per cent. below the average of the previous five years. The deaths were below the average in all age groups except 65 and over.

The infantile mortality was 61·2 per 1,000 births, and is 21 per cent. below the average for February of the previous five years.

**New Buildings—Metropolis.**—According to returns supplied by the several Town Clerks there were erected, in the Metropolitan area, during February, 411 new buildings, as compared with 456 in February, 1916.

The total for the two months January and February, was 780, as compared with 907 during the corresponding period of 1916.

† Imported only. § Average official f.o.b. price for flour for home consumption. This includes 3½d. handling and commission charges; but city millers, handling grain for their own mills, obtain same for 1½d. per bushel less than the f.o.b. price. On March 25th the f.o.b. price was reduced to 4/10½ per bushel, so that since that date the price for flour for home consumption has been 43. 9d. per bushel (on trucks), Sydney.
